

FOR IMMEDIATE RELEASE

## **Dynacast Leverages OneStream Software's Unified Platform for Corporate Performance Management**

ROCHESTER, MICHIGAN—(July, 2015)—[OneStream Software LLC](#), leader in Corporate Performance Management (CPM) solutions for the mid to large enterprise, today announced another live and successful deployment of its unified solution for financial consolidation, reporting, planning, analysis and data quality.

"OneStream is pleased to welcome Dynacast to our growing list of successful customers." says Tom Shea – President, OneStream Software. "OneStream XF's extensible platform has allowed us to deliver an exceptional solution for Dynacast's global reporting needs. By implementing our unified CPM solution, OneStream XF is helping Dynacast streamline their financial consolidation and close process in addition to offering the finance team more solutions including purchase price accounting, sales reporting and KPI analytics."

Dynacast, the global manufacturer of small engineered high-precision components, joins an elite list of mid to large organizations around the world that have implemented OneStream XF to meet their financial consolidation, planning and management reporting needs.

"As Dynacast continues to expand we realized that we needed one CPM solution capable of handling our multiple ERP systems, with various configurations, stretched across the globe." said Keith Weidman, Vice President - Finance & Corporate Development, of Dynacast. "We quickly realized that OneStream XF met our requirements and the benefits from implementing OneStream XF included improved financial consolidation and reporting, corporate governance, [Sarbanes-Oxley compliance](#) and intercompany eliminations. These key improvements alone would have been considered a success, however we are also leveraging the OneStream XF platform for KPI dashboard analysis, purchase price accounting, detailed sales analysis (by customer by item code), Salesforce integration, capex tracking and machine asset tracking. By delivering more solutions on a single platform, Dynacast is eliminating manual and time consuming tasks and replacing them with value ad analytics."

"We are happy to support Dynacast in their continued global financial reporting initiatives including detailed sales reporting and analytics. OneStream XF's flexibility and extensibility is allowing us to continue to deliver more solutions without adding any IT complexity." says Craig Colby, Sr. VP Business Development, OneStream Software.

OneStream XF, is a single, unified Corporate Performance Management software platform that simplifies processes to deliver financial reporting and operational analytics for complex organizations. OneStream provides the finance business users with simple Guided Workflows to simultaneously improve the quality and consistency of data while reducing risk throughout the financial consolidation, reporting and planning processes.
